

SAMVEL GEVORGYAN

Senior Frontend Developer (Angular/Ionic)

samvelgevorgyan87@gmail.com | +34655688527 | Barcelona , Spain

SUMMARY

Senior Front-End Developer with 10+ years of experience specializing in Angular (v2-22+) and Ionic (v3-8). Proven track record of delivering high-performance web and mobile solutions (AdTech, FinTech, Supply Chain) for international companies in Spain, Ukraine, and Armenia. Expert in TypeScript, RxJS, and NX , with a focus on clean code, performance optimization, and seamless user experience

WORK EXPERIENCE

Senior Angular Developer (B2B Contractor) | Geomotiv (Project: Elementaltv)

Nov 2023 - May 2026

- Engineer high-scale AdTech platforms specifically designed for advertisers and publishers.
- Architect and implement Micro-frontend (MFE) solutions using Angular Module Federation to ensure scalable and independent module deployment.
- Utilize NX monorepo tools to manage complex codebases, improve build times, and maintain architectural consistency.
- Implement complex features and modular structures using Angular (v20) and TypeScript.
- Optimize application performance and manage state with RxJS to ensure a seamless user experience.
- Participate in technical discussions regarding architecture and realization of new project requirements.
- Report directly to the CTO and COO regarding technical updates and potential project issues.

Senior Frontend Developer (B2B Contractor) | inCust Angular/Ionic

Jan 2022 – Feb 2023

- **Multi-Platform Development:** Engineered multi-platform applications and portals for business customers in the US, UK, Australia and Canada markets.
- **Mobile Expertise:** Developed and modified hybrid mobile applications for iOS and Android using Ionic 3/4+ and Angular.
- **FinTech Solutions:** Created specialised business tools, including modern payment methods for refuelling and parking services.
- **Full Release Cycle:** Managed the end-to-end application release process for both Apple App Store (iTunes) and Google Play Store.

Frontend Developer QAD DynaSys | Spain Angular/Ionic

Nov 2019 – Feb 2026

- **Enterprise Software Development:** Developed and maintained international, large-scale Demand & Supply Chain Planning software
- **Data Visualization & Dashboards:** Architected and developed complex analytical dashboards for Demand & Supply Chain Planning, focusing on high-density data visualization.
- **Metrics & Analytics:** Implemented interactive charts and data representations using Chart.js and Kendo UI for Angular to track business dimensions and key performance metrics.
- **Responsive Web Solutions:** Built responsive, cross-browser compatible web applications with a focus on high performance and usability.
- **Technical Implementation:** Translated complex design specifications and business logic into clean, functional code using Angular v2+ and TypeScript
- **Full Release Cycle:** Managed the end-to-end application release process for both Apple App Store (iTunes) and Google Play Store.

09/2015 – 11/2019

- **Vshoo (On-demand Taxi Platform):** Engineered a web-based taxi ordering system using Facebook and Google JavaScript SDKs and Google Maps API for real-time location tracking
- **Connecttotv (Streaming Platform):** Architected and built a custom high-performance web player using Angular to support over 900 international channels.I have created our own web video player
- **Metrics & Analytics:** Implemented interactive charts and data representations using Chart.js and Kendo UI for Angular to track business dimensions and key performance metrics.
- **Merchant (FinTech Application):** Designed and developed a specialized online money transfer application using AngularJS(v1), Grunt.js, Bower...
- **API Integration:** Successfully integrated third-party social and mapping APIs to enhance user engagement and platform functionality.

Career Foundation (2008 – 2014): Held leadership and engineering roles, including Deputy Director and Construction Foreman, at Sanloret LLC and Blesk LLC.

EDUCATION	Web Development Certification	01/ 2015 - 07/ 2015
	• "COLIBRILAB" LLC, Armenia	
	Master's Degree in Engineering	Sep 2008 - May 2010
	Construction and Operation of Water Systems	
	• Yerevan State University of Architecture and Construction, Armenia	
	Accounting and Taxation Principles Certification	2008
	• "Economics & Law IRC", Armenia	
	Bachelor's Degree in EngineeringEconomics and Management of Enterprises (Air Transport)	Sep 2004 - May 2008
	• State Engineering University of Armenia	

KEY SKILLS	Core Frontend Expertise	
	• Frameworks: Angular (v2-22), Ionic (v3-8), AngularJS, React (Basic) Vue.js (Basic). • Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, SASS/LESS. • Architecture: NX Monorepo, Angular Module Federation (MFE). • State & Logic: RxJS, Signals, NGXS/NgRx.	
	Libraries & UI	
	• UI Frameworks: Angular Material, Bootstrap, Angular Flex-Layout. (Basic). • Legacy & DOM: jQuery / jQuery UI. • Visualization: Kendo UI, Chart.js, Grid.js.	
	Tools & Ecosystem	
	• Development: NX, Grunt.js, Bower, NPM • Testing & Backend: Cypress, Firebase. • APIs: Google Maps API, Facebook/Google SDK, REST API (Swagger). • AI-Assisted Engineering: Experience with Codex, Claude Code, Antigravity, OpenCode and JetBrains Junie. Created custom agent skills and development workflows, including iterative coding loops and Conductor-based workflows. Worked with local models through Ollama and model access through OpenRouter.	
	Secondary / Foundational Skills	
	• Backend: Node.js/ Nest.js (Basic), PHP (Basic), Java / JSP (Basic). • Databases: MongoDB (Basic), MySQL (Basic).	

LANGUAGES	• English: B2 Professional Working Proficiency
	• Spanish: B1 Professional Working Proficiency
	• Russian: Native
	• Armenian: Native
